SUMMARY

Passionate and dedicated Computer Science student with expertise in programming and web app development, driven to solve challenging problems that enhance user satisfaction.

TECHNICAL SKILLS

Programming:

C++, Java, Python, OOPS, DSA.

Web Technologies:

HTML, CSS, JS, React JS, Node JS, Express JS.

Data Management:

MySQL, MongoDB.

Tools: VScode, SEO, Github.

CERTIFICATES

- Full Stack Web Development | LinkedIn Learning | Feb '23.
- C++ & Data Structure | Extellon | July '22.
- Fundamentals of Digital Marketing | Coursera | May '22.

POWER SKILLS

- Adaptive and resilient leadership.
- Strong collaboration and communication.
- Critical thinking and problem-solving.
- Innovative idea generation.

EXTRA CURRICULAR ACTIVITIES

- Selected for District Cricket Tournament | Oct '19
- Selected for Enter School Sport Competition | Jan '16

EXPERIENCE

Ex-Intern at **Celebal Technologies** – Frontend Developer [May '23 – Jul '23]

- Contributed to web application development using modern frontend technologies, specifically React JS, as a Frontend Developer Intern at Celebal Technologies Summer Internship Program (2 Months).
- Played a key role in creating and maintaining user-friendly interfaces for web applications, collaborating closely with a skilled team.
- Gained valuable expertise and actively contributed to the development process during the internship, focusing on frontend development at Celebal Technologies.

PROJECTS

Social Media Website

Apr '23

- Designed and developed a React JS-based social media website for content sharing, discussions, and connecting with like-minded individuals.
- Created the website using a wide range of technologies, including HTML, CSS, JavaScript, and React JS, were employed.
- Deployed successfully the website, ensuring smooth functionality and seamless user experience.

Shopping Website

Dec '22

- Designed an ecommerce website to provide an unparalleled online shopping experience with a vast selection of quality products and exceptional customer service.
- Developed the website using, a range of technologies, including HTML, CSS and JavaScript, were used.
- Deployed successfully the website, ensuring an intuitive shopping experience with a diverse product range, responsive design, seamless navigation, shopping cart implementation and user registration.

Flight Booking System

July '22

- Designed a flight booking system which simplifies the reservation process, providing users with a seamless experience to search, book, and manage flights.
- Created using a range of technologies such as C++ programming language, object-oriented design, and possibly additional libraries for user interface and data management.
- Deployed the website, ensuring an enhanced and streamlined booking process, resulting in improved customer satisfaction and increased operational efficiency.

EDUCATION

B.Tech. in Computer Science and Engineering Aug '20 – Present

Lovely Professional University | Phagwara, Punjab

Higher Secondary

Jun '19 - Mar '20

Sudhir Memorial Institute | Kolkata, West Bengal

Secondary

Jun '17 - Mar '18

ST. Aloysius Day School | Kolkata, West Bengal
